

## Wendy's Bullhorn

You in the blue dress, you and your friend put your forks down and step away from those salads.// Whoever made those should be arrested. Is lettuce supposed to be brown, I don't think so. And those tomatoes, do they have any taste at all?// Why didn't you walk across the street to Wendy's? Mandarin chicken, chicken BLT, taco supreme, those are salads. And those people there, they love making salads so they make them all day long.// Mrs. Wendy over and out. Hey you with the beard and the bad hamburger...
