**MOM:** Ever since we got a DVR, life is so much more manageable. It's amazing!  
And now if we're out, we can even set the DVR to record...from my cell  
phone.  
How cool is *that*? And it's so easy...  
...even my husband Josh can do it.  
And if we all want to watch something different on the DVR at the  
same time that's not a big deal anymore. We can just (seamlessly)  
move whatever we recorded to any other TV in the house.  
But we still have fun figuring <sup>it</sup> <sub>out</sub> who gets which room.

**MOM:** We were gonna ~~to~~ watch *that* in here.  
Bring it.  
Alright!  
I guess you guys are gonna have to watch downstairs.
