

**PALMOLIVE**

When my grandchildren come to visit, I always whip up my  
honey-glazed chicken wings. They say they're "awesome" grandma!  
But boy, do they stick to my pan. That's why I use Palmolive to help me  
clean up. Cause it makes that sweet sticky baked on honey slide right  
off. So I can spend time enjoying my grandchildren . . . not cleaning up.  
And my hands, well with Palmolive they look pretty awesome, too!

VO

Palmolive; you cook, we'll clean.
