

TRICIA / DR Martin

INT. TRAUMA ROOM - DAY

Tricia is lying on the table, face down, her butt propped on a pillow. ~~Dr. Taylor is examining her face while Dr. Martin looks at her bone breaks.~~ Interns hover in the back.

TRICIA

Does it really take that many people to figure out what's wrong back there? Cause my butt's hanging out in the breeze, in case you hadn't noticed.

Sc. 1

DR. ~~TAYLOR~~ MARTIN

(under his breath)  
Oh, everybody noticed.

TRICIA

You better be able to fix it. I have Pom Statewides in a month.

DR. MARTIN

Which is...?

TRICIA

It's a competition. Poms? Pom routines?

DR. MARTIN

You're a cheerleader?

TRICIA

I'm a Pom.

DR. ~~TAYLOR~~ MARTIN

Cheerleaders just jump around. Poms are dancers,

~~DR. MARTIN~~

With pom poms.

TRICIA

Pom PONS. There's an N at the end.  
Nun nuh nuh nuh nuh.

(to Dr. Taylor)

I don't know why nobody can get that.

DR. MARTIN

I'm not sure you're going to be doing any dancing in the next month.

TRICIA

You better be lying.

DR. MARTIN

Not lying. You have a fracture at the top of your femur, and you've shattered your coccyx.

1/5

GREY'S ANATOMY

TRICIA  
What the hell is that?

DR. ~~TAYLOR~~ MARTIN  
It's the bone at the bottom of your spine.

She's still not getting it.

DR. ~~TAYLOR~~ MARTIN (CONT'D)  
The bottom of your bottom.

TRICIA  
My ass? I broke my ass?

~~DR. TAYLOR~~  
~~That's one way to look at it.~~

DR. MARTIN  
~~You're gonna have to have surgery.~~  
But the good news is, we'll put you under, so we can fix the bones and ~~Dr. Taylor can~~ fix your face all at the same time.

TRICIA  
(to Dr. Taylor)  
You better be good.

DR. ~~TAYLOR~~ MARTIN  
I am. But there still may be a little scarring, you got quite a gash there.

TRICIA  
Scarring??? On my face??? Call my mother. Right now. I'm finding someone else.

~~Dr. Taylor~~ <sup>Martin</sup> kneels down to get face to face with her.

DR. ~~TAYLOR~~ MARTIN  
You're not gonna find anybody better than me.

And that seems to calm her down.
